We've been giving fram, benge and shirley updated numbers. They are working on some bill asking for money but I've just been getting them dollar numbers so I don't really know. That process is foreign to me

Is stuff going on? I got a report yesterday from a lobbyist at capital that was a bit screwy about quality jobs act changes. Curious.

That sounds good. Bunney said some Solyndra folks are returning soon and that we might be presenting them with some terms/incentive packages. He told me the land is out east of town some where. Any truth to this? I asked if an energy TIF industrial park could be created for them (and others down the road) to provide additional incentives.

Thanks. We met with ARRA Recovery Team in Biden's office--they seemed to love our Brady Project--also all big fans of Solyndra.

Hey

Wanted to let you know that next Wed, the 3rd, at 5:30 at the McBirney Mansion, the Mayor will be announcing his comprehensive energy initiatives, one of which will be the Brady part of our grant. You are certainly invited. Should be a good news visionary type of event.
